

Favorite Teacher Contest

Most students appreciate the efforts of their teachers, but not as many are willing to put their thoughts into coherent written form. Recently 11 students at the TCTC accepted the challenge to enter the contest. They submitted two page essays describing the attributes of their favorite teacher at the Trumbull Career & Technical Center. They were asked to reflect on the specific contributions of the teacher they chose to write about.

The essays will be assessed by educational personnel who do not work at the TCTC. Although only one student can win, all who participated are deserving of credit. The business of education is very hard work and it is refreshing to receive acknowledgement of a job well done.

With the permission of the students, their essays will be displayed in the media center at the school. The winner will be announced next week.
