about the program...

brief overview

Any student interested in pursuing a career in the medical professions will benefit from this program. All students will complete a core of health related classes during the first semester, some of which will include **medical terminology, health, safety and infection control, CPR and first aid, medical math, anatomy and physiology, and vital signs (blood pressures, etc.)** Near the end of the first semester, students will select along with instructor's approval, from the following three pathways.

Pharmacy Technician — What You'll Learn...

- Skills to assist licensed Pharmacists in providing medication and products to patients
- How to interpret medical and pharmaceutical technology
- Pharmacy recordkeeping
- Medication names, actions, uses and doses

Medical Transcriptionist — What You'll Learn...

- Transcribe dictated medical documents including discharge summaries, medical histories, physical exam reports, etc.
- Interpret medical, pharmaceutical and laboratory terminology

Pre-Nursing — What You'll Learn...

- Anatomy and Physiology
- Health Care Ethics
- Patient Care
- Growth and Development Along the Lifespan
- Basic Pharmacology
