## Carpentry

# about the program...

## brief overview

Carpentry is a two year program designed to provide up to date instruction on equipment, methods, and materials used in residential and commercial carpentry. Focus will be on both the rough (construction) and finished (woodworking) aspects of the trade. Students will learn the safe and proper use of all tools from the basic hammers and saws to the most modern such as the CNC router.

## what you'll learn

- Rough Framing
- Cabinet Making
- Siding
- C.N.C Operating
- Roofing
- Finish Carpentry
