Construction Technology Tech Prep

about the program...

brief overview

Using curriculum designed by the National Center for Construction and Education Research (NCCER) as a guide, students will be prepared to enter either the construction work force or a college or university to pursue a degree in a construction or engineering field. This is accomplished through a blend of traditional classroom learning paired with hands-on learning.

what you'll learn

- Construction Fundamentals, such as:
 - Safety
 - Materials
 - Documentation
 - Problem Solving
- Construction Management, including:
 - Site Development
 - People
 - Systems
 - Legal
- Plumbing
- Electrical
- Masonry
- Carpentry
