Information Technology Tech Prep

about the program...

brief overview

Information Technology (IT) is the design, development, implementation, support or management of computer-based information systems. Many industries need IT workers, including manufacturing, finance, insurance, health care and government. IT Tech Prep combines college prep classes with high-level technical training.

what you'll learn

- Web Page Design
 - HTML
 - FrontPage
 - Flash
- Visual Basic.NET Programming
- Microsoft Office Applications
- Computer Forensics
- Networking
- Computer Security
- Operating Systems

educational opportunities in this pathway

- Articulation agreements for credits are in place with numerous trade and technical schools in the area.
- IT Tech Prep provides a seamless curriculum and continuous course of study leading to a two-year associate degree or four-year bachelor's degree in a variety of computer-related majors. Articulation credits and college credit by exam are available through several area universities.
