Interior Design Technology

about the program...

brief overview

The TCTC Interior Design program introduces students to the exciting array of career possibilities associated with the Interior Design Field. Students are provided with real life work situations through customer service projects and learn to complete quality work that meets industry standards. Special attention is also given to Interior Design theory. Students complete projects familiarizing them with the concepts of art and design. Interior Design is a two year program encompassing both trade and design related skills.
